**** COUNCIL MEMBER PAOLETTO MOVED TO ACCEPT THE MINUTES**

**** COUNCIL PRESIDENT McCARTHY SECONDED**

**** MOTION PASSED UNANIMOUSLY**

138-11 Application for Waiver to Extend Driveway Width for St. Vincent's College located at 2660 Main Street.

Mr. DeAngelis explained that the request involved the widening of two (2) curb cuts to 24 feet. He said the extension was important for fire safety and emergency access, otherwise the site will remain as it exists. The only change will be to the interior of the property with no exterior changes and they are keeping the existing parking layout with repaving. He further explained that they were looking to construct two (2) separate curb cuts. They will also spruce up the property with some landscaping. He noted that the building is currently occupied and after the modification, it will be more utilized.

Council President McCarthy recalled from the last meeting that traffic in the area was terrible at the Salem Street and Main Street, noting that there have been many accidents. He pointed out that he mentioned this as a precautionary measure.

He also stated that even though it's a small project, in the future it's always good to have a conversation with the district council members to keep them informed of any proposed requests. He noted that Council member dePara, 136TH district was in favor of the project.
